Each year, the NAIOP Northwest Florida Chapter hosts a Golf Classic that brings the commercial real estate community together for a day of fun, food, and some friendly competition and it is the most important fundraiser of the year. This year, the golf tournament took place on October 16. The sponsorships are very important to the success of the event and the chapter as a whole because they generate a large portion of the operating funds and reserve. Additionally, a portion of the proceeds from this event every year go towards awarding scholarships to multiple students in the Building and Construction Program at the University of West Florida.

The Golf Classic is a single event. In 2015 we raised record setting revenues. A total sponsorship revenue of $24,260 was raised, representing more than a third of the annual revenues.
